

TAGISH COMMUNITY LIBRARY

OCTOBER 2015

The Yukon Library Librarians workshop was held Sept. 16th+17th. Jane and Lesli attended and yes, we learned sooooo much! One of the best sentences out of the workshop was spoken by Sarah; “The world is not contained in buildings anymore.” How very true..much of the workshop was information on how to access various websites for furthering education. Also..there was a book buying spree and there will be many new and exciting books arriving at the Tagish Library over the next couple of months. Thank you to all the people that put the workshop together!!
